## *Dermatique Medical Center* By Staff Writer

**D**ermatique Medical Center for Advanced Skincare, Inc in Westlake Village is proud to welcome Esthetician Kirstie Reese. Kirstie is a CA State Board Licensed Esthetician specializing in adult and teen (age 12 & up) Acne Treatment.

Acne is a skin condition that occurs when your hair follicles become plugged with oil and dead skin cells. Acne usually appears on your face, neck, chest, back and shoulders. Effective treatments are available, but acne can be persistent. The pimples and bumps

heal slowly, and when one begins to go away, others seem to crop up.

Acne is most common among teenagers, with a reported prevalence of 70 to 87 percent. Increasingly, younger children are getting acne as well.

In a recent interview Kirstie explains her unique approach, "This is not your typical relaxing facial. I ask a lot of questions and talk a lot throughout the treatment because I am focused on teaching my client how to manage their acne with a home-care product regimen and regular acne treatments."

When it comes to acne there is no quick-fix but these treatments deliver major results!

According to Marc Kerner, MD, FACS and Medical Director of Dermatique, "I am excited to have Kirstie working in our Westlake office, she is amazing with the patients and really gets great results with her treatments."

In addition to Acne Treatment Kirstie also specializes in facial, peels, medical microdermabrasion and lash extensions. Call Tina at 805.230.1111 to set up your appointment. [www.dermatiqueskincare.com](http://www.dermatiqueskincare.com)
